

## make\_art\_results

Setting up the function:

Now, let's make some art!

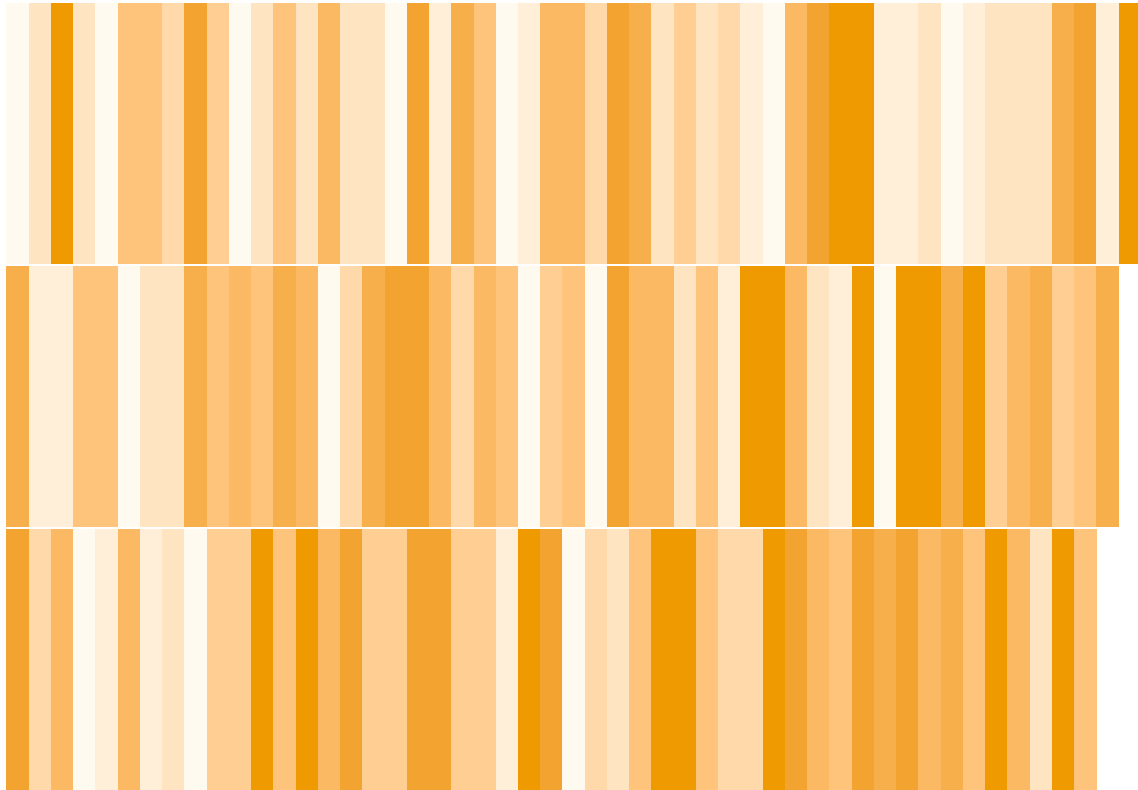

Default settings:

```
make_art()
```

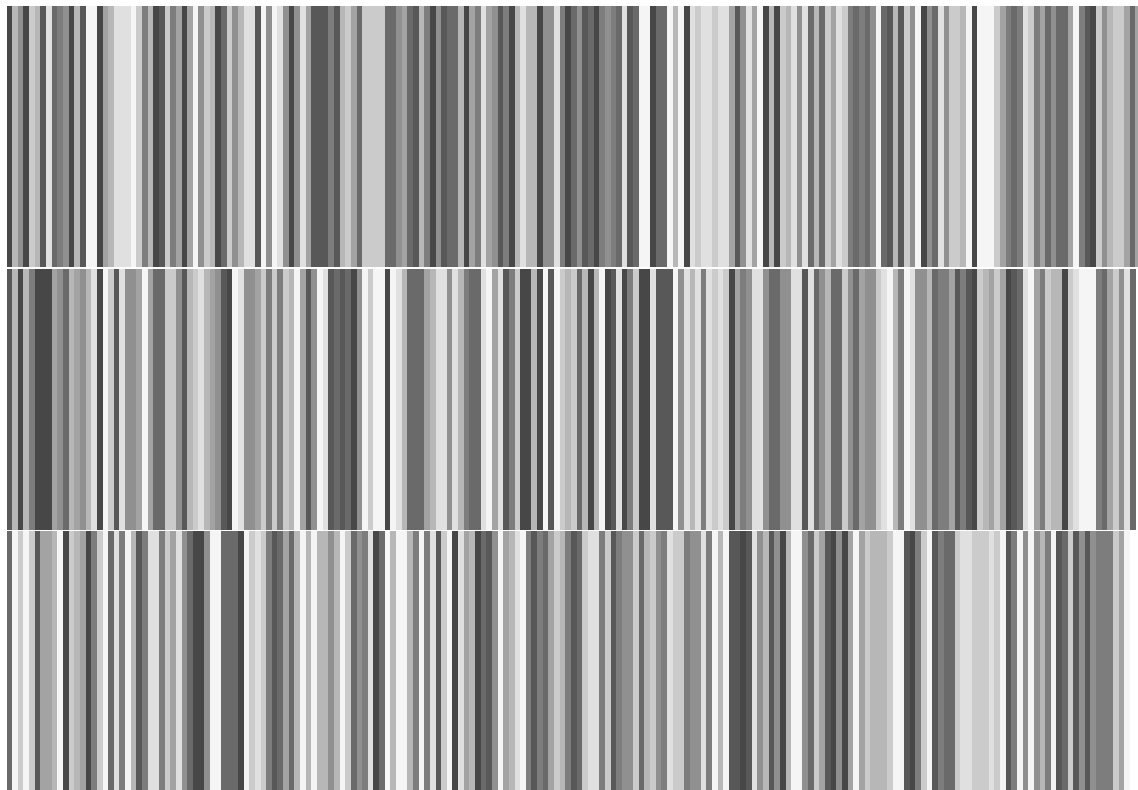

Less stripes, different colours:

```
make_art(1, 150)
```

Black and white:

```
make_art(12345, 600)
```

Colours can also be set manually!

```
make_art(stripes = 1000,  
         colour1 = "skyblue",  
         colour2 = "seagreen")
```

```
## Warning: Removed 1 rows containing missing values (`position_stack()`).
```
